Tour Operator - A person or company that negotiates discount rates, packages travel products, prints brochures, and markets these travel products through travel agents or to the general public.

Travel Writers - A person who documents their travels (for business or pleasure) including attractions, hotels, restaurants and points of interest in different geographical regions.

Wholesalers - A Company that usually creates and markets inclusive tours and FITs for sale through travel agents. Often used interchangeably with "tour operator," but several distinctions might be drawn:

1. Wholesaler presumably sells nothing at retail; a tour operator often does both.
2. Wholesaler does not always create his or her own products; a tour operator virtually always does.
3. Wholesaler is less inclined than a tour operator to perform local services. Industry writers often fail to make distinctions and to confound things further; many travel companies perform any or all of the functions of travel agent, contractor, tour operator, and wholesaler.
