

Samantha Towery

Samantha Towery is the National Park Service Commercial Use Authorization Program Manager. She is a graduate of Montana State University and has worked for the National Park Service in various positions and parks for over 20 years. Her early involvement with commercial service providers fostered her belief that those providers and NPS are partners in preserving the resources and values of the National Park System for the enjoyment, education, and inspiration of this and future generations.

Samantha currently lives in northwest Montana, pursuing all things outdoor and spending time with her partner Matt, family and friends, and her two adventurous pups.
